Exercise: Pen tool - a circle

NVCC

1 Set up a black stroke with no fill.

Then, select the Curvature Pen Tool from the toolbar.

2 Click once on square #1.

3 Click once on square #2.

4 Click once on Square #3.

5 Hover your cursor over the first anchor point you made and click to complete a circular shape.

Now Click the Direct Select Tool.
Use it to:

- Move the anchor points
- Move the handles of the anchor points to change the shape
