Exercise: Pen tool - turning corners

NVCC

1 Select the pen tool

Then, choose No Fill and a Black Stroke in the the pen tool Options Bar.

2 Click on the first square where it says 'click once' with the pen tool.

3 Hold down the Option key (Mac) Alt key (PC) and Click the Anchor Point you just placed.
Note: this takes away one of the handles, thus freeing you to go in any direction.

4 (Moving Clockwise) Click the next gray box and repeat Step 3.

5 Continue clicking each next grey square 1 time, followed by Step 3.

6 Close the shape by hovering over the original anchor point and Clicking once.
